

IMPORTANT NOTICE

Dear Affiliate Partner,

Due to the lack of clarity on Sprint's Rules and Regulations we are forced to revise our policy issued on Wednesday, August 27th 2008 with regards to Carrier Jump Pages.

Effective immediately Flycell will not accept any Sprint, Nextel or Boost customers through its landing pages.

This means that any customer whose wireless phone number is managed by Sprint, Nextel or Boost will not be able to signup for Flycell's Club Pack Subscription and consequently the referring Affiliate Partner **will not be able to monetize on that traffic.**

Starting on September 2nd, Flycell will start a certification process which will allow affiliates who are approved to get compensated on Sprint, Nextel or Boost customers. In order for you to be considered for this certification, the following will need to be submitted:

1. Company Name
2. Contact Information
3. Name of the 3rd party network you work with (if applicable)
4. List of URLs that will be used to promote the Flycell offer

Once this information is received, Flycell will review all applications and decide at Flycell's discretion who is eligible to get compensated on Sprint, Nextel or Boost customers.

For those Affiliate Partners who are approved, Flycell will issue a special link which will allow Sprint, Nextel or Boost customer to signup for Flycell's Club Pack Subscription and consequently compensate the referring Affiliate Partner.

All applications for certification must be sent to affiliates@flycell.com or to your Account Manager.

We appreciate your patience through this process. We will be working diligently to ensure that this certification process is quick and easy.

Sincerely,

Javier Barragan
VP, Acquisition Marketing
Flycell, Inc.
